

NETCO®

Niveus

PROFESSIONAL AIR PURIFIER

The **NIVEUS** air purifier is the professional solution to purify the air in indoor environments. Mobile, versatile, easy to use and with very low average energy consumption (40/60Watt). NIVEUS is equipped with a multi-certified **ULPA U15** filter, able to guarantee the best air quality, purified from fine dust, allergens, viruses, bacteria, fumes and odours, always with measurable and verifiable data. With the new touchscreen display and customized dashboard, you can always have your air quality values under control, even remotely: in your company, in your office, in your home.

NIVEUS creates a healthy and clean environment by continuously and quickly reducing the particulate matter presents in the air, protecting and safeguarding health.

NV 50i 4.0 Model

TECHNICAL DATA

| | |
|--|-----------------|
| Mains voltage [V] | 220-240 |
| Network Frequency [Hz] | 50/60 |
| Rated power [W] | 88 |
| Maximum room area [m ²] | 90 |
| Maximum air flow rate [m ³ /h] | 300 |
| Primary filter filtering surface [m ²] | 4 |
| Degree of filtration of primary filter material * | ULPA U15 |
| Activated carbon filtering surface [m ²] | 4 |
| Sound pressure level [dB(A)] | Min.19 - Max 45 |
| Dimensions [L x W x H] - [cm] | 31 x 31 x 69 |
| Weight [kg] | 22 |

*Filtration degree of filtering material according to the EN1822 -1 regulation

INTELLIGENT TECHNOLOGY 4.0

Sensors for monitoring Air quality

ULPA U15 filter

Activated carbon filter

Efficiency of filtration 99.9995%

Low energy consumption

Powerful engine brushless

Spinning wheels for easy portability

Easy to use plug and play
